Cympad

**Optimize your cymbal sound.
Customize your cymbal sound.**

Available in a choice of popular models—and recommended for any drumming style or situation—CYMPADS are an affordable, easy to use accessory for enhancing and controlling the sound and performance of virtually all cymbal sizes, types and brands.

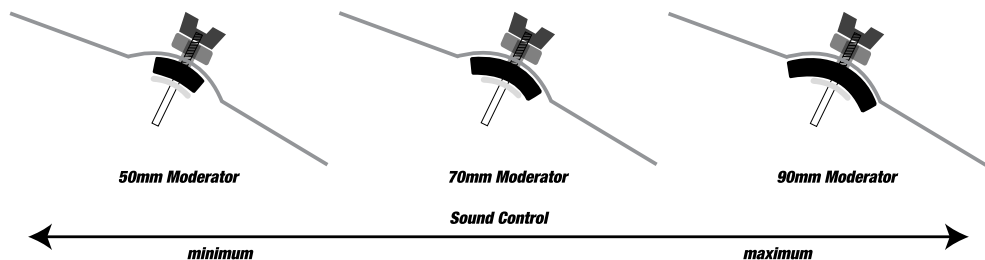

• CYMPAD's premium-grade, cellular foam is consistent in size, thickness and density—allowing CYMPADS to provide more natural, more reliable cymbal support.

• CYMPADS not only improve cymbal sound and suspension, they isolate the cymbals from stands and mounting hardware to reduce transmission of vibration and noise.

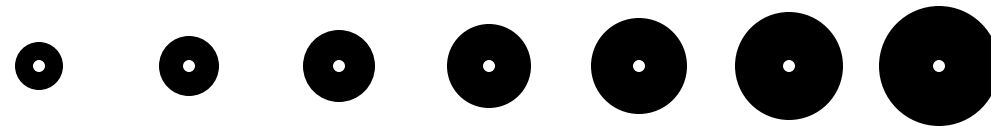

• Soft and flexible but strong and durable, CYMPADS provide a smoother, more comfortable feel on Rides, Crashes, Hi-Hats and Effects.

• CYMPADS are used and endorsed by many of today's top professionals.

CYMPAD Moderator cymbal washers reduce cymbal volume and unwanted overtones, moderate sustain and increase articulation to let drummers “customize” their cymbal sound. Available in a choice of six sizes, Moderators offer a variety of options for incremental tone control. They can be used to ‘dry out’ a ride cymbal in a live application, reduce the volume and decay of a crash in a lesson or practice session and add focus and definition to an entire cymbal set in the recording studio.

Optimizers

*CYMPAD **Optimizer** cymbal washers are made from a premium-quality cellular foam material and are a major improvement over conventional felt washers. Consistent in size and density, Optimizers provide superior cymbal suspension plus isolation from stands and mounting hardware— offering modern drummers a better sound and a natural, more comfortable feel in every drumming situation.*

40mm in diameter with 8, 12 and 15mm heights for individual cymbals and stacks, Optimizer models also include a 3-piece set for hi-hats and an 18mm version for ride and larger crash and effect cymbals.

CYMPAD Optimizer Cymbal Pads

40x15mm • 40x12mm • 40x8mm

40x18mm Ride • 50x9mm Hi-Hat Seat • 24x10mm Hi-Hat Clutch

Chromatics SE

NEW from Cympad! Developed to reveal the sound of cymbals and enhance the look of drumsets, Cympad's **Chromatics SE** cymbal washers are available in a new Camouflage special edition—letting today's drummers show their skills in an exciting, new way.

Chromatics SE provides all the features and benefits of standard Chromatics, including enhanced sound and feel as well as consistency, durability and visibility. Watch for more Chromatics SE models coming soon.

CYMPAD Chromatics SE Cymbal Pads

40x15mm Camouflage

Chromatics

CYMPAD Chromatic cymbal washers come in a wide selection of color options that allow drummers to contrast, compliment and customize the look of their drum and cymbal sets. And, because they are made from CYMPAD's exclusive high-density, cellular "Memory" foam, Chromatics also provide significant sound and performance enhancements when compared to old-fashioned felt washers.

Uniform in size and shape, Chromatics are durable, colorful and recommended for the tops and bottoms of cymbals in all drumming styles and situations.

40x15mm Orange • 40x15mm Crimson • 40x15mm White • 40x15mm Yellow

Moderators

CYMPAD Moderator cymbal pads provide the consistency and dependability of CYMPAD's advanced cellular foam material while reducing cymbal volume and unwanted overtones, controlling sustain and increasing articulation.

Available in a choice of 6 sizes, Moderators offer a full range of options for incremental tone control of cymbals in rehearsal, recording and performance and are highly recommended for practice rooms and teaching studios, as well.
